## Notice

**All questions are asked on level 'expert'.**

When you click on an amount you will automatically enter a room with a human opponent.

A baseball trivia question will be asked; whomever answer correctly first gets the winnings shown.

**The Rule we use to determine your winnings:**

If you win a game you get double the amount you paid to enter the game, minus 5%.

For Example, if you entered the \$10 game, and you won, your prize money would be \$19. (This is because you put in \$10, and double that is \$20, since  $20 \times 0.05 = \$1$ , so  $20 - \$1 = \$19$ ).
